<p>Based the Fortune 500 list for 2006 as published at http://money.cnn.com/magazines/fortune/fortune500/full_list/. This analysis is based on web domains which resolve to a company’s corporate home page. Determination of companies authenticating their corporate domain is based on the presence of a valid Sender ID Framework (SIDF) compliant SPF text record found in the domain's zone file. DNS queries were completed on March 5, 2007 using the Sender ID Wizard www.microsoft.com/senderid/wizard and validated by Mark Monitor, www.markmonitor.com. AOTA recognizes that listed companies may be authenticating other domains and mail streams utilizing other complementary technologies. Results are not an indicator of the intent or the reputation of the name companies and neither AOTA, Inc. nor its members or underwriters endorse any of the listed companies. Companies listed are not necessarily endorsing AOTA, AOTA underwriters, and/or the Sender ID Framework. To report updates, email “staff AT aotalliance.org”.
